Examiner, Art Unit 2145

***General Action***

***Allowable Subject Matter***

Claims 1-4, 6-15 and 17-55 are allowed.

The following is an examiner's statement of reasons for allowance: No prior art could be found, alone or in combination, to teach all the claimed limitations. In particular, no prior art could be found to teach the claimed layout of a multicast distribution device sending messages to subscriber devices through a subscriber's access device, wherein the access device functions as an interface for a plurality of subscriber devices. In addition, the access device performs functions on behalf of each of the subscriber devices including fulfilling join requests and authenticating the subscriber with the multicast distribution device. Finally, the inventions described within claims 42-55 are allowable for the reasons stated above and feature computer readable storage medium which is defined as being a tangible storage medium (such as a semiconductor memory device, magnetic memory device and optical memory device; see p. 14 line 27 – p. 15, line 1 of the specifications).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
